TECHNICAL PROJECTS

[*https://github.com/bluespirit777*]

Project 1: SIEM Home Lab —

I developed a custom dashboard in elastic SIEM to visualize and analyze security events.

Project 2: Cisco Home Network —

I designed and configured a home network using Cisco Packet Tracer, with a Cisco 2911 router and a Cisco 2960 switch.

Project 3: Active Directory Home Lab —

I created an Active Directory home lab, incorporating Splunk and Kali Linux and familiarizing myself with Active Directory.

EDUCATION

Western Governors University –

B.S. Cybersecurity and Information Assurance

May 2024 - In Progress

EXPERIENCE

Outbound Associate — *Amazon Fulfillment Center*

July 2022 – August 2024

Worked with team members to manage high-volume inventory processes and ensure seamless operations under tight deadlines. Monitor container utilization and track inventory. Perform audits on products in shipping containers.

Warehouse level 3 — *The Wine Group*

October 2017 – June 2022

Led groups of employees on projects and met deadlines on loading trailers and rail carts.

Cashier — *Food 4 Less*

September 2014 – October 2017

Provided great customer service and ensured transactions were accurate.
